You've got it follow us Page 2 WORK us good controns, but you don't have enough time to get to F4 when you get to that level. And I also don't like the game switched back to the main menu after I finished all the primary tasks. less I like that it has a road in cars, but the first one a please take away the time limit cuz I'm time for seconds and I don't want it to be time so I can have more time destroying things and you know what I mean less Love this game, but 3 star ratings because the flash button doesn't work. Please make it work for free roam, also please repair the flash button and I will rate 5 stars. less I like the actions of tornadoes that form and grow, but when moving on to LEVELS EF3-EF5 should move on without paying. I'm rating this game a three-star review because I don't want to go ahead by paying and because I like the way tornadoes grow and shape. This is a good game, I'm not saying it's bad. less very fun, but I keep losing in the fourth level so the creator can make it a little less less very fun, but I keep losing in the fourth level so the creator can make it a little easier please: 3 less This game is amazing, but please dev make bigger cities and more maps because the game gets boring fast as I could see 3 big cities 5 mini cities and 10 cities is not that easy I know, but please less Awesome graphics, guys! I can see some real talent going into this app. Overall, I would have given this 5 star game if you guys didn't cut the levels off after completing the goals. For example, if I have 30 seconds left, let me destroy more buildings before my meter runs out. In free roaming, it would be nice to see the destruction meter still available. Also, a few more props would be nice to see (3 wheelers, people, storm chasers, etc.) worth little \$. Decent application..... less big game. I read the reviews and was hesitant to try. I'm glad I did, yes, you play 4 levels and then you have to pay. 1.56 cheap for the rest of the game. Well, it's worth it. It's easy and beats it in just an hour, but I get to destroy things. The ads weren't crazy and left after the purchase. If you think about it, do it. Unless I'm a huge tornado enthusiast and finding games like this is always fun. I see a few things that need to be set to make this an even better game. The movement needs to be set so that it's more responsive, maybe you don't have the targets so far apart or it might take a little longer, and I think when it starts on different levels you should be able to start as this category of tornado. As instead of being an EF2 on EF4 levels can start as an EF3 and work up to EF4. less big game. I read the reviews and was hesitant to try.
